An exciting opportunity has become available at Glasshouse College in Stourbridge, as part of the committed team focusing on the holistic needs of the students.

These posts come as an opportunity to provide support to the College Students in order to help them to feel safe, respected, confident and capable of achieving their best in their college sessions, social enterprise opportunities and in their residential provision. Ruskin Mill has a 24-hour curriculum and a unique method, Practical Skills and Therapeutic Education, in order to support the re-imagining of the student's potential and shape their own future.

The students benefit from an extensive range of nutritional, therapeutic and medical support within each College. Each core element of the educational cycle is designed to establish active and positive relationships with nature, people and the community through a holistic approach to human development and supports three key stages: overcoming barriers to learning, becoming skilled, and being ready to engage and give back to the community. This is reflected in the college sessions and within the residential provision. This is a great opportunity for anyone wanting a career crossing both care and education.
